

How to Make a Bow in a Few Simple Steps

- Wired ribbon is best
- You have 4 yards
- Leave at least 12 inches for one tail
- Pinch and make at least a 4 inch loop
- Tuck under and if double sided, twist and make another loop same size
- Repeat making each loop slightly larger for a total of 6 loops.
- Secure with wire, leaving enough to attach to the wreath
- Fluff the loops and tie to the wreath.
